

# Form 1D: Supplementary Application Form for Relocated Buildings

Form to be filled out in conjunction with Form 1 Land Use Consent Application

## 1. DETAILS

Location of the site that the building will be relocated to:

---

---

Location of the site that the building will be relocated from:

---

---

## 2. BUILDING DESCRIPTION

(a) Please provide specific details for what is proposed. Include the type of building, the current state of the exterior, type of cladding, and the building's intended use.

---

---

---

---

---

---

---

---

---

---

---

---

(b) Please provide a description of the proposed location for the relocated building. This should include whether the building is visible from neighbouring properties, public places etc.

---

---

---

---

---

---

---

---

---

---

(c) **If the building is visible from neighbouring properties and/or public places, please explain the effects of the building on these places, and how you intend to avoid, remedy or mitigate these effects.**

---

---

---

---

---

---

---

---

---

---

(d) **Does the site have an existing entranceway from a Council road? If yes, please explain the current state and location of the entranceway, and any intended improvements. If no, you will be required to form an entranceway. Please show the proposed location of the entranceway on the site plan, and explain the intended formation of the entranceway below.**

---

---

---

---

---

---

---

---

### 3. ADDITIONAL INFORMATION

The provision of correct and accurate information will enable the effective processing of your application and will ensure that delays are kept to a minimum.

**Please provide the following information with your application:**

- A Schedule of Improvements relating to the completion of the exterior appearance of the building, which has been prepared or endorsed by a building professional or quantity surveyor. The Schedule of Improvements shall include a timeframe for completion of each aspect of the exterior of the building, estimated costs for proposed works, and who will be carrying out the works. The cost of the works should include all potential labour costs, regardless of whether you are carrying out the works yourself. This schedule may be used to determine an appropriate bond to guarantee the completion of works, should the Council feel it is necessary. See the Relocated Buildings Guide for further information on this.
- Site Plan showing the location of the building on the property in relation to boundaries and other buildings.
- Photographs of the building.
- Building elevations – these are required for all applications for relocated buildings (scale 1:50/1:100). The building elevations should show the following:
  - The natural ground level
  - Existing and finished ground levels
  - Maximum building height and relevant recession plane angle(s)
