Subject: Mineral Sands Mine - Barrytown Flats

Caution! This message was sent from outside your organization.

Kia Ora

I recognise that this submission is delayed in coming, however, I believe it is of the utmost of importance to have submission periods for this, extended due to the imminent environmental impacts, the locality of the project and the affects to land value and livelihood. In fact, there are so many negatives to this development that its clear the only way forward for the development is to seek legal or planning changes, which seems to be what is sought.

I oppose these consents, the conditions, and whether or not it lies on public, conservation or private land, it should not be allowed to go ahead.

Genevieve Robinson
