 Electronic (CD) copy Hard (paper) copy

I/we **have** served a copy of my/our submission on the Applicant as per Section 96(6)(b) of the RMA

 Yes

My/our submission is that: (state in summary the nature of your submission. Clearly indicate whether you support or oppose the specific proposal, or wish to have amendments made, giving reasons)

I oppose the application due to adverse effects both on and of climate change  
The proposal is emission intensive, from diesel fuelled trucking and open cast mining. The carbon emissions from the proposal will generate more than minor effects during a government declared climate crisis, contributing to the myriad of adverse effects from global warming.  
The application lacks an emissions report, and this critical lack of information means the proposal cannot be measured against the climate change provisions in the RMA and the Climate Change. This consent is contrary to the RMA, and contrary to the objectives and policies of relevant regional and district plans, and proposed plans.  
Response [Zero Carbon] Amendment Act  
The application is in opposition to targets and actions of the Emission Reduction Plan. The proposed mining would also reduce the land elevation by 1.2m, potentially exacerbating climate impacts of coastal erosion and seawater incursion into groundwater from sea level rise and storm surges in a warming climate

I/we seek the following decision from the Local Authority:(give precise details)

decline applications
