I/we **have** served a copy of my/our submission on the Applicant as per Section 96(6)(b) of the RMA

 Yes

The specific parts of the application that my submission relates to are: *(give details)*

Aspects of application that I oppose

1. A bond of only \$160,000 is insufficient for the size of the operation.
2. Both West Coast Regional council and Grey District council are under-resourced to deal with the extra workload for consenting and compliance monitoring this project has already and will continue to burden them with.
3. Our government has declared a climate emergency, and this project will only exacerbate negative effects on our natural environment.
4. Most people living in close proximity to the proposed mine will not benefit from the operation.

My/our submission is that: *(include whether you support or oppose the application or specific parts of it; whether you are neutral regarding the application or specific parts of it; and the reasons for your views).*

I/we seek the following decision from the Local Authority:(give precise details)

1. A more suitable bond would be 1% of projected export earnings for 5 years of active mining. Which is \$3,150,000 as disclosed in the community information flyer posted on 9/10/2023.
2. An increase in rates for this land to cover the extra cost of compliance and monitoring so there is no financial burden on council or public.
- 3 +4. Seek better technology and mining processes that do not require carbon intensive inputs for mediocre gains.

I am not* a trade competitor for the purposes of section 308B of the Resource Management Act 1991.
