The specific parts of the application that my submission relates to are: *(give details)* Avian management plan

The avian management plan is inadequate and will not provide sufficient protection for Tāiko. These unique birds have an inalienable right to breed in their colonies with utmost protection from human interference. They are imprinted on the Punakaiki region and can only breed there. They have been breeding in this location for more than 10,000 years. The mining activities pose a significant threat to the birds because of the risk of grounding and vehicle strike. The avian management plan fails to acknowledge that because they are slow breeders, a 90% annual survival rate for adults is required to avoid the colony going into decline. Any loss of adults is serious. Critically, it fails to acknowledge that a large number of adult birds fly in and out of the colony immediately after dusk to feed chicks. There are times during the breeding season when this time is within the stated mining hours, and adults will be at risk of grounding and death.

My/our submission is that: *(include whether you support or oppose the application or specific parts of it; whether you are neutral regarding the application or specific parts of it; and the reasons for your views).*
The application should be rejected because of unacceptable risk to Tāiko

I/we seek the following decision from the Local Authority:(give precise details)

Reject the application as it stands, because of unacceptable risk to Tāiko. Restrict all mining and mining-related vehicle movements to the hours of daylight (not extending into dawn or dusk).
